TELUS, Burnaby Office
Multiple Locations, Canada

Dear Hiring Manager:

I am writing to express my strong interest in the *Engineering, Technology and Business co-op roles* at TELUS. I am a software engineering student at the University of Victoria in British Columbia. I am eager to learn and grow in the field of computer and software engineering, and I believe that this role will help me gain valuable work experience related to my interests and help me acquire a practical understanding in a real-world setting.

Throughout my academic endeavours, I have had the chance to explore and learn about many important concepts in software engineering, such as object-oriented programming, software architecture design, agile methodologies and software testing. My academic and project experiences align well with the requirements of this position:

- **Software Development and Engineering**: I've built a diverse range of software applications, which involved developing the front-end, back-end systems along with developing micro-services for these products.
- **Data Analytics and Reporting**: I have experience in data collection, analysis, and dashboard creation, where I've extensively utilized Python and NumPy.
- **Automation and Optimization**: I have implemented numerous automation solutions across several projects which helped me optimize workflows, reduce manual tasks, and improve system performance and reliability.
- **Collaboration and Communication**: I actively mentored peers and participated in cross-functional projects that enhanced my communication and innovation skills.
- **Problem Solving and Innovation**: I enjoy tackling complex challenges with creative, efficient solutions, constantly seeking innovative approaches to drive project success and deliver value.

I am currently available for **an 8-month** work term and would be open to the possibility of participating in more than two consecutive terms. Thank you for considering my application. I look forward to the possibility of speaking with you further about this role.

Most Sincerely,

Arfaz Hossain (He/Him)
Software Engineering Student,
University of Victoria
